CONTENTS

Introduction	1
Debra L. Martin	
An Assessment of the Application of Model Stable Populations to Paleodemographic Data	4
N. C. Sullivan and M.A. Katzenberg	
Spondylolysis in the Koniag Eskimo Vertebral Column16
M. Gunness-Hey	
An Analysis of Hypoplasia and Hypocalcification in Deciduous Dentition from Dickson Mound24
M. L. Blakey	
Harris Lines as Indicators of Stress in Prehistoric Illinois Populations35
A. H. Goodman and G. A. Clark	
Cortical Involution of Rib in Two Prehistoric Amerindian Populations47
D. J. Saitta	
Cortical Bone Loss in Juveniles of Dickson Mounds64
M.S. Keith	
Femoral Bone Mineral Content and Cortical Thickness in Aleut and Eskimo Adults78
E.E. Frank	
Bone Growth and Remodeling as a Measure of Nutritional Stress .84	
R. Huss-Ashmore	
Microstructural Examination: Possibilities for Skeletal Analysis96
D. L. Martin	
The Potential of Stable Carbon Isotopes in Bioarchaeological Anthropology	108
M. P. Bumsted	

Acknowledgements

This edited monograph would not have been possible without the assistance of Drs. George J. Armelagos and H. Martin Wobst. Their continuous guidance, support and editorial assistance was greatly appreciated. We would also like to thank (from the bottom of our hearts) Ruthie Kuchyt who kept the massive amounts of paperwork associated with this project to a minimum for those of us who do not deal well with redtape. This monograph is dedicated to Moon Pie and Monkey.

The cover emblem was redrawn from a skull in the text by D.R. Brothwell, Digging Up Bones (1972, Museum of Natural History, London, 2nd Edition).
