

The EU-US Dispute over Regulation of Genetically Modified Organisms, Plants, Feeds, and Foods

Case Contents

M.J. Peterson
Revised June 2010

1.) Case Study: Situation Summary

2.) Appendices: These provide specific information and may be used selectively by each instructor, depending on his or her emphasis in the use of the case. The appendices provide the technical details for an in-depth analysis, as well as, additional references both for the instructors and the students.

Appendix A: Chronology

Appendix B: Background on EU regulatory process and regulations

Appendix C: Background on US regulatory process and regulations

Appendix D: Exercise: Summarizing levels of ethical concern and scientific uncertainty

Appendix E: Ethical Evaluation of Using Genetically Modified Organisms and Plants

Appendix F: Optional Additional Readings

Appendix G: Internet Resources

This case was created by the International Dimensions of Ethics Education in Science and Engineering (IDEESE) Project at the University of Massachusetts Amherst with support from the National Science Foundation under grant number 0734887. Any opinions, findings, conclusions or recommendations expressed in this material are those of the author(s) and do not necessarily reflect the views of the National Science Foundation. More information about the IDEESE and copies of its modules can be found at <http://www.umass.edu/sts/ethics>.
