STRENGTHENING STUDENT OUTCOME FOCUSED SCHOOL COUNSELING RESEARCH

Laura Owen and Jeff Warren

March 2, 2016
Agenda

- 9:15am - 9:30am—*Introductions*
- 9:30am - 10:15am—*Overview:*
  - *Research Survey* – Jeff Warren
  - *Focus Groups* – Jeff Warren
  - *Delphi Study* —Carey Dimmitt
  - *National Council of School Counseling and College Access Organizations* - Jill Cook
  - *National Consortium for School Counseling and Postsecondary Success* – Laura Owen
- 10:15am - 10:30am—*BREAK*
- 10:30am - 11:00am—*Small Group Discussions*
- 11:00 am - 11:30am—*Literature Review/Scan*—Mandy Savitz-Romer
- 11:30pm - 12:15pm—*Working Lunch*
- 12:15-12:45 pm - *Multistate Longitudinal Data Exchange* – Patrick Lane (WICHE)
- 12:45-1:00pm - *BREAK*
- 1:00pm - 2:00pm—*Funding Opportunities at the Institute of Education Sciences (IES) for School Counseling Research* – Emily Doolittle and Corinne Alfeld
- 2:00pm - 3:00pm—*Recommendations and Next Steps*
Introductions

- Name
- Affiliation
- Motivation for attending the meeting today
Research Survey and Focus Groups

Jeffrey M. Warren, Ph.D., LPCS, NCC, NCSC
Assistant Professor, Director of Professional School Counseling
Educational Leadership & Counseling
University of North Carolina at Pembroke
Fall 2013

- Transforming School Counseling and College Access Interest Network
  - Research Quality Taskforce
    - Laura Owen and Jeff Warren (co-chairs)
Evidence-Based School Counseling Conference (Northern Kentucky University)

- Enhancing Research Quality: A Round-Table Discussion (~10 participants)
- Findings:
  - Identified Strengths
    - Current resources (CSCORE, SEL webpage, etc.)
    - Initial presence in policy groups (college and career readiness)
    - Some strong research in field
  - Needs
    - Increase research quantity and quality
    - More outlets for publication
    - Strengthening school counselor preparation
    - Direct links between research and practice
  - Priorities
    - Research skill development at EBSCC (occurred Spring 2015)
    - Library (CSCORE and Sink’s website, etc)
    - Large-data sets
Evidence-Based School Counseling Conference (Northern Kentucky University)

Increasing Research Quality in School Counseling: An Imperative Discussion (~40 participants)

- Strengths
  - Funding for research is available (need to access it)
  - Interest in collaborating across organizations/associations

- Needs
  - Large-scale research valuable and needed
  - Career and college SC research needed
  - SCE need to take ownership of research
  - SC preparation in research

- Priorities
  - Journal
  - Research Meeting
  - Training (pre-service and in-service)
Meeting on Strengthening Student Outcome Focused School Counseling Research (3/2/16: University of Georgia)
Survey of Participants
Most relevant areas of focus in school counseling research

Top 3
- Evaluating evidence-based practice
- Conceptualizing effective research practices in SC
- Increasing collaborative partnerships

Bottom 3
- Preparing SC for scholarly contributions
- Cultivating rigorous evaluation practices
- Evaluating ESSC Grants
Type of Research Conducted

Top 3
- Mixed-methods
- Qualitative
- Quantitative

Bottom 3
- Quasi-experimental
- Randomized Control Treatment

Other
- Delphi
- Single Subject

<table>

Spring 2016
Survey of Participants (SC Research meeting)

- Top 3 Areas of Need in SC Research
  - Top 3
    - Evidence-based practice
    - College and career readiness
    - Social Emotional Factors
  - Noteworthy Response
    - ASCA Model implementation effectiveness
Number 1 Issue to Address to Strengthen Student Focused SC Research
Interest in Participating in this Event
Carey Dimmitt, Ph.D.
Associate Director, Fredrickson Center for School Counseling Outcome Research and Evaluation
University of Massachusetts, Amherst
Jill Cook – Assistant Director, American School Counselor Association
Laura Owen, Director School Counseling Program, San Diego State University

National Consortium for School Counseling and Postsecondary Success (NCSCPS)
GOALS:

1. Develop a system where the relationships and outcomes between and among five critical areas for school counselors and college access professionals will be aligned and collaboratively implemented.

2. Establish a common set of outcome metrics for student postsecondary success.

3. Establish systems and structures that are maintained through school counselor leadership with engaged strategic partnerships in order to reach equity in postsecondary results for all students.
Small Group Discussion – 30 Minutes

- If you woke up tomorrow morning and everything in the world of equity driven student outcome focused research was ideal, what would that look like?
- What barriers are currently keeping us from achieving this ideal research condition?
- What strengths/resources are in place today that support the ideal?
- Identify 3-5 small steps that could move us closer to the ideal than we are today.
- Identify 2-3 long term or longitudinal goals that will move us forward.
SCHOOL COUNSELING & COLLEGE AND CAREER READINESS: AN ONGOING LITERATURE SCAN

Strengthening Student Outcome Focused School Counseling Research
Mandy Savitz-Romer, PhD
March 2, 2016
Specific Aim:
Examine shifts in knowledge about college counseling in schools between 2011-2015

- Systematic Literature Review is being conducted to identify recent empirical studies about college advising/counseling and school counseling within the context of college and career readiness in schools.
- Three part process
  - Identification of appropriate literature
  - Data abstraction
  - Data analysis
- Deliverable: The systemic review will culminate with a written literature review for NCSCPS
How our scope is different than the original landscape

- The 2011 College Board landscape and literature review cast a wide net on research that covered school counseling, college and career readiness counseling, and the intersection of the two.

- Given the short span of time between the 2011 publication and the present review, coupled with the specific aim of this review towards setting a foundation for school counseling and postsecondary success, this review focuses specifically on the intersection of college counseling and school counseling.

- The goal is to identify notable themes and gaps in current empirical research on this critically important topic so as to inform future research.
Sources Reviewed

- Literature search was conducted in the following electronic bibliographic databases to identify articles for the systematic review: EBSCO, ERIC, PsycINFO, and Sociological Abstracts.

- We only included sources that met the following criteria:
  - Published between 2011-present
  - Empirical sources

- Two rounds reviewing the scholarship conducted
  - **Round One:**
    - Sources that described 'college counseling' AND 'school counseling' OR 'guidance counseling'
  - **Round Two:**
    - Sources that included 'college counseling' 'college access' 'college preparation'
Defining the Scholarship

School Counseling

College & Career Counseling/Advising
Number of Sources Reviewed

<table>
<thead>
<tr>

<tbody>
<tr>
<td>Total Sources Located</td>
<td>145</td>
<td>63</td>
</tr>
<tr>
<td>Total Sources Reviewed</td>
<td>46</td>
<td>21</td>
</tr>
</tbody>
</table>

**Round One:**
Sources that described 'college counseling' AND ‘school counseling’
OR ‘guidance counseling’

**Round Two:**
Sources that included ‘college counseling’ ‘college access’ or ‘college preparation’

Reasons sources were excluded:
- Non-empirical sources
- Focus not specifically on college/career counseling
- Outcomes of study not specific to postsecondary success outcomes
Evaluate topics against buckets from previous study

<table>

Counselors as Professionals

- Continued presence in the scholarship
  - Clarity of role
  - Counselor time, ratios, and responsibilities
  - Unique impact/influence of SC
- Underrepresented topics
  - Professional development
  - Hiring and oversight/evaluation/accountability
Counselors & their Students

- Continued presence in the scholarship
  - Emphasis on counseling by subgroup
  - College going experiences of culturally, racially, and ethnically diverse students
  - Student perceptions of counseling experience
  - College application/planning process

- Underrepresented topics
  - Families/Parents
  - Counseling younger students/Early college counseling
Counselors & the Educational System

- Continued presence in the scholarship
  - Statewide evaluations of school counseling programs
  - College going cultures and district/school approaches to preparing students for PSE (new models)

- Underrepresented topics
  - Technology (w/the exception of text-based interventions)
  - Leadership/Advocacy
New Trends in the Scholarship

- Emerging causal/impact studies
  - College going rates linked to presence of counseling program
  - Increases in enrollment relative to hiring/ reduced caseloads
  - Efficacy of new models (teachers and counseling)

- Impact of college advising programs
  - Ex. Chicago Coaching Model

- Matriculation support
Additional notable observations

- We found very few school counseling/college counseling sources published in school counseling journals
- Many calls for improved pre-service/in-service
- More people involved in college counseling, thus broader array of topics
Questions?
Lunch
Lunch Discussion – 30 Minutes

- What **resonated** the most for you from the literature review findings?
- What **surprised** you, if anything?
- Based on the literature review findings and other data presented so far today, **how can we increase and improve rigorous research designs** focused on student postsecondary outcomes?
- How do we **align research and counselor practice**?
- How/where should these **research findings** be disseminated?
Patrick Lane - Project Manager, Multistate Longitudinal Data Exchange - WICHE

ACCESS. COLLABORATION. INNOVATION.

WICHE
WESTERN INTERSTATE COMMISSION FOR HIGHER EDUCATION
Overview

- Background and introductions
- State data availability and gaps
- Multistate Longitudinal Data Exchange
- Potential research examples
- Challenges
What is WICHE?

- Promotes access and excellence in higher education for all citizens of the West
Caveat Emptor

- Expertise and background on school counseling
- Data, data, data
- What data resources are available for large scale, quantitative research?
State Longitudinal Data Systems (SLDSs)
SLDSs

- Varying state environments

- Goal: link K-12, postsecondary, and employment data for accountability, research & evaluation, and consumer information

- Key gaps: Data systems limited by state borders
Multistate Longitudinal Data Exchange Concept
MLDE History and Development

- 2008 – Gates Foundation grant for initial meeting of WICHE member states
- 2010 – Gates grant to build 4-state exchange
- 2012 – Pilot exchange becomes operational
- 2014 – Gates grant to expand MLDE
- 2016 – New exchange goes live
Key allowable use:

What are the education and employment outcomes of current and former secondary students?

States can disaggregate by demographic characteristics, program participation, district, school, intervention, etc.

Currently, access to multistate data by external researchers is not allowed.

Many states have processes for allowing access to single-state data.
A research example

- State A has implemented a neer-peer mentoring model where recent college graduates work with school counselors to increase college-going rates and postsecondary persistence. Is it working?
A research example

- Can State A flag students who participate in the model?

- If so, it’s straightforward to evaluate the program for:
  - Postsecondary attendance
  - Postsecondary persistence
  - Credit thresholds
  - Postsecondary completion
  - Bonus: employment outcomes
## Example: Florida HS feedback reports

Gaps and challenges

- Who can access the data?
- Out-of-state migration (MLDE, NSC)
- Common data definitions (particularly career readiness!)
- Research capacity
- Student privacy and data security

The fundamental challenge is NOT that we don’t have data necessary to build a body of evidence, but that the data we have aren’t being used (sometimes for legitimate reasons).
