MOOC: Miscalculations, Oversights, Opportunities and Celebration

Best Practices for Biomedical Research Data Management Massive Open Online Course

Julie Goldman, RDM & Allison Herrera, UX

Miscalculations

- Be Realistic:
  - Use resources available and budget smartly

- Plan Ahead:
  - Incorporate the entire project timeline

Opportunities

- Be Adaptable:
  - Online courses are never going to run exactly as planned

- Find Collaborators:
  - Respond to local and national directives

Oversights

- Include the User:
  - Check-in with different users at every step

- Get Feedback:
  - Conduct a pilot or focus groups early and offer honorariums

Celebration

- Enroll:
  - bit.ly/HMS-RDM-MOOC

As of April 2018 there have been 550+ registered students and the project continues to receive positive feedback
