MEDIEVAL TEXTS & CULTURES OF NORTHERN EUROPE

Medieval Texts and Cultures of Northern Europe is a series which opens up a dedicated forum for comparative work on northern European medieval literature, history and society and their significance in the modern world. It promotes dialogue between anglophone and continental medievalists, and addresses the need for transcultural perspectives on Europe's medieval origins in a way that is distinctive both in scope and academic orientation. The focus is on the medieval texts and cultures of the British Isles, northern and central mainland Europe, and Scandinavia. The chronological range of the series is from c. 800 AD to c. 1600 AD. Each volume makes available to an international readership excellent new work, offering ways of reading texts, cultures and institutions that speak to the contemporary world.

PARISIAN CONFRATERNITY DRAMA OF THE FOURTEENTH CENTURY

THE 'MIRACLES DE NOSTRE DAME PAR PERSONNAGES'

Parisian Confraternity Drama of the Fourteenth Century is the first volume of studies devoted solely to the *Miracles de Notre Dame par personnages*. These anonymous plays, found in a single luxury manuscript, comprise the only major corpus of dramatic works in French that have survived from the fourteenth century. They derive from a rich diversity of sources: narrative miracle accounts, saints' lives, epic *chansons de geste*, vernacular romances, and history. Each play is preceded by a richly detailed miniature, some two dozen include a sermon in prose, and each includes at least one rondel to be sung by the cortege accompanying the Virgin. They constitute both a collective demonstration of the fervent late-medieval devotion to the Virgin, and a substantial archive of contemporary insights into the issues of power, authority, and influence that struggled for dominance in fourteenth-century Paris. As this extraordinary collection has, in its entirety, attracted little critical attention to date, this volume will be of significant interest to scholars wishing to explore the plays in their literary context, as well as those interested in medieval drama, the Marian tradition, and the role of confraternities in fourteenth-century French culture.
