The triple volume excavation monograph "Plantations without Pillars: Archaeology, Wealth, and Material Life at Bush Hill," is currently available on CD in Adobe pdf format. Data recovery excavations conducted at Bush Hill near Aiken, South Carolina, uncovered the remains of the planter's residence occupied from circa 1810 to 1920. The monograph was written by Melanie Cabak and Mark Groover. Printed copies of the report will be available at cost in the near future. To obtain a free copy of the report on CD contact:
