### Description from the Publisher:

**The *Journal of African Diaspora Archaeology and Heritage* provides a focal point for peer-reviewed publications in interdisciplinary studies in archaeology, history, material culture, and heritage dynamics concerning African descendant populations and cultures across the globe. The Journal invites articles on broad topics, including the historical processes of culture, economics, gender, power, and racialization operating within and upon African descendant communities. We seek to engage scholarly, professional, and community perspectives on the social dynamics and historical legacies of African descendant cultures and communities worldwide. The Journal publishes research articles and essays that review developments in these interdisciplinary fields. Journal web site: <http://lcoastpress.com/journal.php?id=15>.**
