Reflection Worksheet: Getting Past “Post-Truth”: Librarians Respond

Please take a few minutes during or after the panel to fill out this form. Anyone who wishes can speak about any of these points during the discussion time.

We also hope to collect and compile these after the session has ended so that others can benefit. Responses will be shared in the ACRLNEC institutional repository.

1. What are two questions this panel has raised for you?

2. What are two examples of the “post-truth” climate at your own institution? We’d like to hear about what you’re doing, what needs to be done, or any other thoughts based on your own situation.

3. What are two disagreements you have with what has been discussed?

4. What are two points you agreed with? What are some aspects of the panel that made you see the issues in a new way?
