- We resolve problems together and remove barriers between organizations with different values, cultures, and audiences together to meet student needs
- Others in our organizations are still intolerant of one other
- Bring up ideas and implement them: Dynamic, open workstation display; Web-based printing; U-drive; blogs; security clinic...
- Next step: Joint training of student employees

Writing Center

- Formerly in an isolated, difficult to find location in the English building; low traffic; low funding; poor web site; minimal advertising
- We approached them
- Collaboration between Reference and LC and Writing Center began in 2005
- Assigned a liaison librarian who worked with WC manager to develop an online guide to writing
- Library purchased non-circulating writing reference collection from list provided by WC tutors
- Offer joint programs and training
- Migration from a transient space to completely resident in the LC over the last 2 summers
- Provide constant referrals and use has skyrocketed (4X)
