Subject: Googlizing Everything ... Fri, Mar 28, 9:30am

Dear Faculty,

Scholarworks@UMassAmherst is one way the campus supports the communication of the scholarship at UMass Amherst. Using this digital technology and the web has its benefits but its use also raises many questions including, "What are my rights?" and, "Are citation references really improved?"

On Friday, March 28, 2008, we hope you will join us for, "Engaging the Web for Scholarship, Pedagogy, and Publication." We're particularly pleased to have Dr. Siva Vaidhyanathan, associate professor of Media Studies and Law at the University of Virginia, join us for his talk, "The Googlization of Everything." The program will also include a faculty panel presentation of Scholarworks implementations, remarks on the Carnegie Classification on Community Engagement, and a facilitated luncheon that will result in action plans for adopting Scholarworks and answers to some of the questions listed above.
