Recent Dissertations on Archaeology and History

The following, non-exhaustive lists of dissertations on African diaspora archaeology and related history studies were compiled by Chris Fennell. Archaeology dissertations are listed for the period since September 2008. The September 2005, 2006, 2007, and 2008 issues of the *African Diaspora Archaeology Newsletter* provided similar compilations of dissertations for the period of 2000-2008. History dissertations are also listed below for the period since September 2008, with a focus on studies addressing aspects of past social structures, social networks, the built environment, material culture, and impacts of racism. If you are aware of other recent dissertations, please email me, and I will include the information in a future newsletter edition. The dissertations listed below are doctoral theses, unless otherwise indicated, and are listed in chronological order by year and then alphabetic order by the author name within each year.
