Build a Past, Present & Future Timeline or Map

Design an interactive timeline (Sutori, Canva, Timeline JS) or StoryMap that showcases the past, present, and future of the Olympics from the Heraean Games to 2050.

Design a Gold Medal

Explore the history of the Olympic medal designs from 1896 to 2022, then sketch a design for a gold medal for the 2024 Olympics that represents the host country's culture and history.

Predict the Winners

Select 3 winter olympic events and examine the trends of the past winners of these events. Based on your findings, predict which country will win the gold medal in these events in 2022.

Design an Advertisement

Conduct a critical media literacy analysis of TV/online advertisements for previous winter olympics and then use the persuasive design techniques you uncovered during your analysis to produce an online ad for the 2022 Olympics.

Write a Persuasive Letter

Research the events of the winter Olympics from Chamonix (1924) to Beijing (2022) and identify one event you think should be added to the next winter olympics. Write a persuasive letter to convince the International Olympic Committee to add that sport in 2026.

Examine Press Freedom in Olympic Host Countries

Examine the freedom of the press rankings for the current host country and 10 previous host countries of the winter Olympics. Create an editorial cartoon to present your findings.

Design a Monument

Build a 3D monument - either with materials at home or using a 3D modeling tool (e.g., Tinkercad) - for an influential athlete in winter Olympic history.

Explore Protest History

Examine how and why athletes have engaged in protest throughout Olympic history and present your findings in the form of a protest song.
